What leads people to do crazy things?

**Why do we believe unsupported ideas contrary
to all common sense?**

Answer: We don't directly experience our world. We interpret and twist every encounter according to our own worldview. (Thus we believe what we prefer.)

How worldviews so often become distorted — bringing delusions, depression, and crazy beliefs — is an extremely important new area of psychology.

If you constantly find yourself asking, "How in the world can people really believe that?!" then this book is for you.

Not every dish should be served.

Karmen Artos, a sous chef at Feline Fine Retirement Home, is horrified when two of the residents hijack her kitchen. Worse yet, they've created an Internet cooking show that has gone viral. The recipes are revolting, but viewers are wild for 'Grandma's Witchin' Kitchen!'

Devon Winger, a down-on-his-luck showrunner, arrives in Cat's Paw Cove to convince the eccentric elderly Internet stars to take the show to the next level -- a ShowFlix series. The magical stars are tickled at the idea, but Karmen is dead set against revealing the sanctuary for supernaturals to the world.

Can Karmen convince the sexy Devon that the show will be a dud? Or will Devon realize there's more to the quirky retirement home than meets the camera's eye?
